

Woodman Talks: 2025

15 JANUARY - CHRIS TRURAN

"Digital forensics"

This covers the use of CCTV and scam calls to catch criminals. He covers the murder of Sarah Everard, how scammers try to trick victims out of their money, and how the police triangulate the position of suspects using their mobile phones.

12 FEBRUARY - GUY THOMAS

'110 years of Aviation Heritage in Hertfordshire'

The talk covers the many airfields, aircraft and aviators that have made the county's connection with aviation so strong. It continues to do so today!

5 MARCH - HELEN FRY

"Women in Intelligence"

From the twentieth century onward, women took on an extraordinary range of roles in intelligence, defying the conventions of their time. Across both world wars, far from being a small part of covert operations, women ran spy networks and escape lines, parachuted behind enemy lines, and interrogated prisoners.

23 APRIL - ROY TYZACK

" A crime on every street"

We are joined by former Murder Squad detective Roy Tyzack, who served with the Metropolitan Police Service in the early 1970's and was actually based in Whitechapel from 1975 until the early 1980's. Roy will speak about a number of crimes that were committed in London in the 1970's
